

Download the MyItinerary app to your mobile device

The MyItinerary app from ScholarOne allows meeting attendees to browse the program and create an itinerary from your mobile device. The app is available as both a native iOS (iPhone/iPad) app through the iTunes App Store, or as an HTML5 Web app for all major mobile devices (iPhone/iPad, Android, Blackberry 7 and above). Once either version is downloaded to your device, it can be run without the need for an active internet connection. In addition, you can sync an itinerary that you created online with the app by entering your unique itinerary name.

Downloading the iOS native app for your iPhone or iPad

For optimal use, we recommend:

iPhone 3GS, iPod touch (3rd generation+), and iPad with iOS 4.0 or later

You can download the MyItinerary app by searching for “MyItinerary” in the App Store directly from your mobile device. Alternatively, you can access the link below or scan the QR code to access the iTunes page for the app.

<http://itunes.apple.com/us/app/myitinerary/id463544345?mt=8>

Once the MyItinerary app is downloaded, select the meeting “56th Annual Conference on Magnetism & Magnetic Materials”

Downloading the Web app for your iPhone/iPad, Android, or Blackberry

For optimal use, we recommend:

iPhone 3GS, iPod touch (3rd generation+), and iPad with iOS 4.0 or later

Most mobile devices using Android 2.2 or later with the default browser

Blackberry Torch or later device using Blackberry OS 7.0 with the default browser

Download the MyItinerary app by accessing the link below or scanning the QR code
